## ACCOUNTING AID ACADEMY

The Academy offers a pipeline of detailed financial operations management service sets with specific outcomes to meet small business owners' immediate and future needs:

**Education and Assessment:**  
Includes brief introductions to financial operations management topics through 1:1 initial consultations, workshops and presentations and open office hours.

**A-la-Carte Services:**  
1:1 technical coaching services to owners including income tax and sales filing, financial statements, and business accounting systems.

**Academy Excellence Series:**  
The Accounting Aid Academy EXCELLENCE Series catering to micro business owners, offers a unique blend of small group workshops and one-on-one technical assistance with a laser focus on a specific financial operations process. After completing each series, business owners will have the skills, tools, and habits to efficiently and accurately sustain that process and be prepared to build the next.

**Custom EXCELLENCE series**  
Can be built and delivered for CDFI's and BSO's wishing to sponsor a specific topic including tax, Wave, QuickBooks, Engaging a Bookkeeper, Generating and Using Financial Statements for Growth, among others.
